

NOTES AND COMMENTS ON THE 1931 TO 1934 LISTING OF RCA VICTOR'S

PRE-LP - 33 1/3 RPM. RECORDINGS

Although the "FIRST SPECIAL DATE FOR LP RECORD AT 33 1/3 RPM" (according to the notation in the Recording Books at RCA states) was on 21 May 1931 due to the company's policy of allocating blocks of numbers to different studios and locations in the country, matrix number LBRC-69642 was not the first number, sequentially speaking that was so recorded.

For purposes of easy reference, however, I have listed records in numerical order according to assigned matrix number, regardless of dates.

The listing is followed by a separate compilation of KNOWN issued LP's by series and, where possible, by description of label and other distinguishing marks.

One of the more striking aspects of this series is the variety of prefixes used to designate matrix numbers. Most of the meanings of these have been deciphered in the course of the preparation of the work from which this listing has been culled, that is, THE ENCYCLOPAEDIA OF RECORDINGS: Part 1: VICTOR which includes every known recording ever made by the company from 1900 to 1950, and which I have been preparing together with Mr. William R. Moran. However, there are still a few unknown uses which I am hoping will be clarified when a more accurate Rosetta Stone is discovered.

Generally speaking, these prefixes can be broken down as follows:

- L - used as a first letter of a matrix no. always indicates LP.
- B - used as a second letter always indicates a 10" record.
- C - used as a second letter always indicates a 12" record.
- RC - used as third and fourth seem to imply the use of RCA Victor equipment.
- VE - used in these positions seem to imply the use of Western Electric equipment.
- S - used when in the third position (LBSHQ & LCSHQ) and followed by the HQ shown, indicates the use of Semi High Quality amplifiers.
- M - if used, indicates a transfer from film to wax - but it will be noted that for the last 4 numbers listed, it was not preceded by the 'L' - yet the books indicate Long Playing Transfer.

Albums were supplied for some sets, both in the Manual and the Automatic sequences, LM the former and LAM the latter.

LCVE-72010		O'CONNELL(Charles)(org): Medley of Hymns No. 2: But the Lord is Mindful/Beautiful Isle of Somewhere/Consolation/I need Thee every hour/O Rest in the Lord/I know that my Redeemer liveth (for use in Funeral Parlors)
